## Rubicon Skill Development Pvt. Ltd.

### Memorandum of Understanding (MOU)

Between

Ashokrao Mane College of Pharmacy, Peth-Vadgaon, Kolhapur.  
Rubicon Skill Development Pvt. Ltd.

For Training students on Rubicon's Campus to Corporate Program

This Memorandum of Understanding is made at Pune on 19th day of August 2019.

Ashokrao Mane College of Pharmacy, Peth-Vadgaon, Kolhapur (India) hereinafter referred to as "THE COLLEGE" (Which term shall so far as the context admits be deemed to mean and include its successors and assigns) of the First Part,

AND

Rubicon Skill Development Private Limited a Company incorporated and registered under the Companies Act, 2013, having its Corporate office at 801, 8<sup>th</sup> Floor, Tower 1, World Trade Centre, Pune - 411014, Maharashtra, hereinafter referred to as "Rubicon" (which term shall so far as the context admits be deemed to mean and include its successors, administrators, executors and assignees) of the Second Part.

#### 1. Introduction

THE COLLEGE has decided to partner with RUBICON for the conduct of Tomorrow's Foundation Connect with Work Program (hereinafter referred to as "Training Program") at THE COLLEGE.

#### 2. THE COLLEGE Responsibilities:

2.1. Shall nominate one person with adequate accountability and responsibility to coordinate the Training Program. He / She would act as the single point of contact for the proposed Programme.

2.2. Shall make available the infrastructure (including IT infrastructure, applications and connectivity) required to conduct the Training Program.

[BACK TO INDEX](#)

- 2.3. Shall provide all the support services and facilities to RUBICON during the conduct of the said Training Program. Adequate power backup through UPS and DG supplies during the training sessions
- 2.4. Shall coordinate with RUBICON and facilitate conduct of all the assessments including the assessment to be conducted by the external agency (if any) identified by RUBICON, as per schedule communicated by RUBICON.
- 2.5. Provide lodging, wherever available, as per the standards of RUBICON for faculty conducting the Training Programme for the total duration of the Training Programme plus two days (one day prior and one day after closure). The lodging so planned to be provided should be with independent room (with attached toilet), regular water supply, clean, with access to boarding facilities, should have well lit approach and surroundings, have adequate safety & protection and peaceful environment.
- 2.6. Shall share the details of students in a prescribed format to ensure that there is no duplication of beneficiaries
- 2.7. This is a multi-year program to create social impact. The college shall share few details to assess the impact of the program. For e.g. Placement details of trained students will be required to assess the impact of the program from one year to another year.
3. Rubicon Responsibilities:
- 3.1. Will provide necessary training as per Training Programme requirements and curriculum for delivery as per Annexure I to this MOU
- 3.2. Will provide suitable faculties for the training exclusive for classroom training
- 3.3. Will conduct assessment of its own and also arrange external assessment as required.

[BACK TO INDEX](#)

#### 4. Other Terms & Conditions:

The following are other terms and conditions of engagement:

4.1. Batch Size: The batch size would need to be a min/ max of 35-40.

4.2. Each student would be made available for the Training Program for specified number of hours per day for the duration of the Training Program

4.3. Pre-assessment & Selection: RUBICON may carry out pre-assessment of the students who have applied for the course and shortlist the select candidates to undergo the Training Program. The final decision on selection of candidates eligible to take the Training Program shall be with RUBICON.

#### 4.4. Programme schedule:

4.4.1. Training Program scheduled commencement date Wednesday 21/08/2019

4.4.2. Scheduled Completion Date: and will be completed by not later than Friday 23/08/2019

#### 4.5. Commercial:

4.5.1. Training Fees: The training Fees is as follows,

Since this is a CSR funded Program there is no fee payable by THE COLLEGE for this Training Program

4.5.2. Payment Terms  
Not Applicable

#### 4.6. Certification:

Students who are successful in the assessment conducted by RUBICON shall be awarded a certificate post completion of the training program.

#### 4.7. Term of engagement:

[BACK TO INDEX](#)

This MoU is valid from the date of sign off by both parties for a period of Two years, however both parties agree that based on mutual agreement, the terms may be extended. Both parties also agree that terms may be renegotiated.

#### 4.8. Limitations and Warranties :

Both parties agree that it would be their endeavour to prevent any liability arising out of default or non-compliance of the MoU terms by the other party.

#### 4.9. Termination:

- 4.9.1. Both parties can terminate the MoU with a prior written thirty (30) day notice on default of terms of non-adherence to any condition or responsibilities by the other party as outlined in this MoU in case such default is not rectified within such 30 days.
- 4.9.2. Both parties also agree that it would be their professional endeavour that despite any termination of the MOU, progress would continue, without any prejudice to the ongoing Training Programmes, which would be without any hindrance and would be progressed for completion.

#### General Terms:

- 5.1. Both the parties may receive information proprietary to other party (the Confidential Information) in the course of performance of their obligations under this MOU. Confidential Information is not meant to include any information which (a) is publicly available (b) is rightfully received by the parties from third parties without accompanying secrecy obligations; (c) is already in either party's possession and was lawfully received from sources other than the parties or (d) is independently developed by the parties. The two bodies understand and acknowledge that the Confidential Information is valuable and confidential and agrees that it will at all times be kept in trust to be disclosed only to such persons as have a "need to know" the same for the effective implementation of this MOU and that it will only be used by the parties for the benefit of others.

- 5.2. Both the parties understand and agree that all written or other tangible data and documentation developed or procured by the other party in performing its obligations under this MOU, whether in printed or electronic form, belongs to other party and that other party will have all rights, titles and interests therein.

[BACK TO INDEX](#)

5.3. Both parties shall not use the name and brand of other party in any advertisement or make any public announcement without the prior written approval of the other.

5.4. Each party shall be at liberty to terminate this MOU with a written notice period of three (3) month to the other party without any compensation and seeking legal redress.

6. Jurisdiction:

In the event of any litigation, the court of jurisdiction shall be Pune.

7. Indemnification

Both parties agree to indemnify each other and hold the other party harmless from and against any claim, loss, liability, or expense, including, but not limited to, damages, patent, and trademark infringement, costs and attorneys' fees, arising out of or in connection with any acts or omissions of their agents or employees, as related to the terms of this MoU.

Any claim, compensation, case initiated by any student against Aricent in relation to the Training Program due to any acts or omissions of COLLEGE and/or RUBICON shall be defended and contested by the COLLEGE and RUBICON at their sole expenses and cost keeping Aricent indemnified from the same.

8. Limitation of Liability:

Except for the indemnification obligations, both parties agree that the liability would be limited to the amount of actual transactions between the two parties

9. Notices:

Any notices under this MOU will be sent by certified or registered mail, return receipt requested, to the respective address of Parties as contained in this MOU. Such notice will be effective upon its mailing as specified.

10. Intellectual Property Rights

[BACK TO INDEX](#)

- 10.1. RUBICON explicitly warrants that it owns all the intellectual properties related to content in all formats, the technology framework and all the related objects and the THE COLLEGE has no rights to use the content and mode of delivery for any other purpose.
- 10.2. Each party hereby undertakes to inform the other party of any violation of Intellectual Property Rights or its unlawful use, under prevalent laws of India. Further, each of the party herein, agrees to co-operate with the other to the extent possible in the process of investigating such cases of any violation of Intellectual Property Rights or its unlawful use and taking legal action against the said infringement.
- 10.3. Upon expiration of this MoU, or two years period of time from the date of completion of the courses, whichever is later, each party hereby agrees that it shall not make any claim on the Trade Name or the copyrights of the other, which belongs exclusively to the other party, nor shall either party use any trade name which is deceptively or confusingly similar to the trade name of the other.

11. Force Majeure:

- 11.1. Neither party to this MOU shall be liable for any failure or delay on its part in performing any of its obligations under this MOU, if such failure or delay shall be result of or arising out of Force Majeure conditions and, provided that the party claiming Force Majeure shall use its best efforts to avoid or remove such cause of non-performance and shall fulfil and continue performance hereunder with the utmost dispatch whenever and to the extent such cause or causes are removed.
- 11.2. Any extraordinary event, which cannot be controlled by the parties, shall for the purpose of this MOU be considered as a Force Majeure event. Such events include acts of God, acts or omissions of any Government or agency thereof, compliance with rules, regulations or order of any Government Authority. Provided however, if either party claims that existence of any of the aforesaid conditions is delaying or disabling the performance by said party of its obligations under this MOU, such party shall give immediate notice to the other party of

## Application of *Lepidium sativum* as an Excipient in Pharmaceuticals

S. V. Sutar<sup>1</sup>, S. S. Shelake<sup>2</sup>, S. V. Patil<sup>3</sup> and S. S. Patil<sup>2</sup>

<sup>1</sup>Department of Pharmaceutical chemistry, Ashokrao Mane College of Pharmacy, Peth-Vadgaon, Hatkanangale, Kolhapur, 416112, Maharashtra, India

<sup>3</sup>Department of Pharmaceutics, Shree Santkrupa College of Pharmacy, Ghogaon, Karad, Satara, 415111, Maharashtra, India

Various types of plant mucilage available like alginic acid, gelatin maize starch and potato starch have been used as a binder in pharmaceutical formulation. But still finding a novel binder is useful in the pharmaceutical industry for manufacturing tablets. *Lepidium sativum* was chosen for its binding property. Aspirin and ibuprofen tablets were prepared by wet granulation technique using *Lepidium sativum* as a tablet binder. The prepared tablets were evaluated for physiochemical characteristics, and the binding efficacy of the *Lepidium sativum* was compared with the standard binder mucilage polyvinyl pyrrolidone (PVP) at similar concentration (3% w/w), 27.16° to 28.45° angle of repose and 0.46–0.46% w/w friability 1.2 to 12.03 min disintegration time. Tablets at 3% w/w binder concentration showed more optimum results as tablet binder. *Lepidium sativum* was found to be useful for the preparation of uncoated tablet dosage form. *Lepidium sativum* can be an alternative binder for the pharmaceutical formulations. Abundant availability, food grade status, economic feasibility, commercial suitability and reliability make the mucilage an alternative for the existing synthetic excipients.

# Polymeric materials for targeted delivery of bioactive agents and drugs

11

Sachinkumar V. Patil\*, Sardar S. Shelake<sup>†</sup>, Shitalkumar S. Patil<sup>‡</sup>

<sup>\*</sup>Shree Santkrupa College of Pharmacy, Karad, India, <sup>†</sup>Ashokrao Mane College of Pharmacy, Kolhapur, India

## Abstract

In recent years, the application of polymeric materials for a targeted drug-delivery system has been greatly advanced. Since polymeric materials played a crucial role in the targeted drug-delivery technology, the selection of such materials is very important in formulation and development. Polymeric materials used as components of the drug-delivery system should not be toxic and must have the desired essential properties required for such developments. Nowadays, research is much focused on the targeted drug-delivery system as it will deliver a medication to the patient with increase in the concentration in some parts of the body relative to others. Thus, such a drug-delivery system is largely founded on polymer-mediated drug delivery in order to combat the downfalls of conventional drug delivery. The selected polymeric material will bind with drugs and target specific parts of the body where there is solely diseased tissue, thereby avoiding interaction with healthy tissue. The aim of a targeted drug-delivery system is to prolong, localize, target, and have a protected drug interaction with the diseased tissue. However, for optimization in the formulation and development of a targeted drug-delivery system, selection of polymeric materials plays a significant role. Various types of polymeric materials were used for the same. Such polymeric materials will be classified as per site of targeting and properties of the polymeric materials. The present chapter intends to focus on various polymeric materials used for targeted delivery of bioactive agents and drugs.

**Keywords:** Polymeric materials, Targeted drug-delivery system, Bioactive agents and drugs, Drug-delivery system.

## 11.1 Introduction

A polymer is a large **molecule**, **macromolecule**, composed of many repeated subunits. Owing to their broad range of properties, both synthetic and natural polymers play an essential and ubiquitous role in every day of life. The term "polymer" derives from the ancient Greek word (*polus*, meaning "many, much") and (*meros*, meaning "parts"), and refers to a **molecule** whose structure is composed of multiple repeating units, from which originate a characteristic of high **relative molecular mass** and attendant properties. The units composing polymers derive, actually or conceptually, from molecules

#### ABSTRACT

The main objective of this study was to formulate and evaluate of Bio-adhesive pulsatile drug delivery system of Telmisartan, an anti-hypertensive drug in order to achieve better therapeutic efficacy and patient compliance. The approach of combination of bio-adhesive pulsatile formulation is suitable for gastro retention and time specific drug delivery. The study was carried by preparation of fast disintegrating core tablet followed by incorporation of core tablet to design bio-adhesive pulsatile tablet by press coating. The press coated tablet was prepared with the polymersethyl cellulose and carbopol. The formulation was evaluated for precompression and post compression parameters, lag time, drug release and bio-adhesive study. All evaluation parameters were found within limits. The lag time expected for this disease was 8 hours as need of drug release for this disease was more likely to act in early morning. The 8 hour lag time was obtained in optimized formulation which has shown muco-adhesion for the same period. Thus bio-adhesive pulsatile drug delivery system could be the best precautionary alternative for the drugs having maximum absorption in stomach and used for diseases which follows circadian rhythm.

#### INTRODUCTION

In the recent era, Novel Drug Delivery System (NDDS) has been growing at a greater rate due to its demand in the pharmaceuticals. The NDDS has changed a lot in the last five to ten years, as it includes technological evolution in the phar-

maceutical industry (Liu *et al.*, 2016; Chaudhary *et al.*, 2015). In the area of gastro-retentive drug delivery system, recent approach was bio-adhesive and floating drug delivery system which include gastro-retention by using various bio-degradable polymers for bio-adhesion. These dosage forms are useful for drugs having better absorption in stomach or when local delivery required in stomach (Gröning and Heun, 1984; Phanindra *et al.*, 2013). In chronopharmacotherapy, the drug release was designed as per circadian rhythm. Pulsatile drug delivery system is much more dependent on the diseases which following circadian rhythm as it is having specific applicability for those disease like bronchial asthma, myocardial infarction, arthritis, peptic ulcer, diabetes mellitus, lipidemic disease, hypertension (Janugade *et al.*, 2009a; Bahul *et al.*, 2009; Nikalje *et al.*, 2012). In case of pulsatile drug delivery system drug is released after a pre-

**ABSTRACT:**

The purpose of present investigation was to formulate bioadhesive pulsatile release tablet (BPRT) of lisinopril drug belong to antihypertensive category for chronotherapy of cardiac disorder. The concept behind this dosage form development is to investigate effect of coating polymer concentration on lag time and drug release from directly compressed tablet. The core tablets prepared by using various concentrations of disintegrants found suitable for complete release of drug in acidic medium indicating its solubility in gastric fluid. The FT-IR studies indicate that selected polymers are compatible with lisinopril since no interaction found in drug-excipient compatibility studies. The dissolution study clearly indicates that higher concentration of polymers which is HPMC K100M and Carbopol reduces free water volume and increase viscosity of the tablet coat causes reduction in drug release. The prepared Bioadhesive pulsatile release tablets showed desired hardness and good mucoadhesion strength. The obtained results showed capability of formulated bioadhesive pulsatile drug delivery system in a drug release for a programmable period of time to attain drug release after minimum 3 hr of Lag time. A stability results clearly indicate that developed pulsatile product was sufficiently stable under accelerated and controlled conditions. Thus, the developed pulsatile tablet can be considered to be a promising formulation for the relief of early morning surge in blood pressure and other cardiac disorders which follows a circadian rhythm.

**KEYWORDS:** Lisinopril, Bioadhesive, Pulsatile tablet, Chronotherapy, Cardiac disorder.

**INTRODUCTION:**

Modified release dosage form show different release profiles depending on its type. This dosage form is used to describe products that alter the timing and rate of release of drug substance. Pulsatile drug delivery system is the most interesting time dependent system. Bioadhesive Pulsatile Drug Delivery Systems are gaining a lot of interest as they deliver the drug at the right site of action, at the right time and in the right amount as well as they have capacity to bind to the mucus membrane thus prolongs retention time in the Gastro-intestinal tract resulting in maximum absorption and hence enhanced bioavailability and spatial and temporal delivery and increasing patient compliance.

DOI: 10.52711/0974-360X.2022.00511

The release of the drug as a pulse after a lag time has to be designed in such a way that a complete and rapid drug release follows the lag time<sup>1</sup>. Pulsatile drug delivery system is an important and focusing part among time-controlled release systems. It is characterized by a predetermined lag time period in the beginning stage of drug release followed by a burst drug release phase in the drug release profiles<sup>2-4</sup>. The pulsatile release has some advantages like it can avoid drug tolerance and control of tissue and the drug release can be controlled by time, by site or by combination of both parameters<sup>5,6</sup>. As far as coating technology is concerned, compression coating is the most popular method to achieve pulsatile drug release due to the simplicity of the formulation process compared to the traditional liquid coating processes which are time-consuming and often not solvent-free. Compression-coating provides thick coatings with short processing time which can

**Subject: Sponsorship for National Level E- Poster Competition for Pharmacy students.**

Respected Sir,

In connection with the above subject we, Ashokrao Mane Pharmacy College, Peth Vadgaon, Womens College of Pharmacy, Peth Vadgaon, Ashokrao Mane Institute of Pharmacy, Ambap and Ashokrao Mane Institute of Pharmaceutical Sciences and Research, Save are planning to organize online national level e-Poster competition for Pharmacy students. It's our humble request to sponsor the program under S. G. Phyto Pharma Pvt. Ltd, Kolhapur.

We all know that S. G. Phyto Pharma Pvt. Ltd. the manufacturers of quality ayurvedic medicines, was founded in 1980 by Late Shri. G. Y. Gune and Late Shri. S. G. Pitre, who were inspired by the senior most Raj Vaidya Shri. Babasaheb Gune, The medical advisor to the state royal family of Kolhapur in early 20th century. Ayurveda, the oriental science of life has been a passion and tradition with the Gune and Pitre families.

It will be our privilege if we get an opportunity to work in collaboration with you. We believe that your contribution to this field is unparalleled and will be of great benefit. This program is scheduled in the third week of February 2022 and will be held on Online Mode.

So we request you to give an opportunity to conduct this event in collaboration with S. G. Phyto Pharma Pvt. Ltd, Kolhapur.

Thanks and Regards

*S. G. Pitre*

Subject: - Regarding Permission for Industrial Visit.

Respected Sir,

On behalf of Ashokrao Mane College of Pharmacy, Peth-Vadgaon. I am writing this letter to you for getting your permission to conduct industrial visit in your industry.

We, Management team, decide to give some practical education to the students about the industry procedure and its facility. From that, your firm is the best option to carry on such project. In that case, we need your support. The student will be part of the visit accompanied by two teachers. We just take a day for this industry visit.

Day & Date of visit- Thursday, 26<sup>th</sup> May 2022.

Number of students (BPharm and MPharm) - 70.

Hope you understand the need of the visit for the education purpose.

Thanking you

Yours faithfully

Dr. S. V. Patil

To,  
The Principal,  
Ashokrao Mane College of Pharmacy, Pethvadgaon

Sub: Appointment of experts to conduct Sharing of Human Resources activity under lead college scheme of Shivaji University, Kolhapur.

Dear Sir/Madam,

With reference to the subject cited above, please find the list of experts from your institute to conduct Sharing of Human Resources activity as per the schedule given below. You are therefore requested to make necessary arrangement and cooperation for the smooth conduction of the activity.

Allotted Centre	Faculty/expert name	Date	Class	Area of Expertise
Bharati Vidyapeeth College of Pharmacy, Kolhapur	Dr. Anand P. Gadad	02 to 15 March 2022	UG/PG	Incompatibility
	Mr. P. B. Patil			Pharmaceutical Chemistry, Pharmaceutical Analysis
	Mrs. Pranali Pradeep Patil			Analytical Chemistry Stress degradation study Standardization of Herbal formulation Pharmaceutical Inorganic Chemistry
Vasantidevi Patil Institute of Pharmacy, Kodoli	Dr. Pravin Subhash Patil			NDDS
	Ms. Sarika Suryawanshi			Dosage form development
	Dr. Udugade Babaso Vithal			Analytical Chemistry Medicinal Chemistry

Kindly requesting you to relieve the above-mentioned faculty of your college.

- Note:** 1) Concerned expert should confirm the time, date schedule and topic from respective allotted centre.  
2) Expert should collect the attendance certificate from respective college after completion of the lecture. It is mandatory to conduct the activity before 15<sup>th</sup> March 2022.  
3) Expert will be given minimum Rs. 1000/- remuneration from the respective allotted college.  
4) Honorarium amount of Rs. 1000/- per expert will be paid from Lead college for one session which will not be less than two hours **only after submission** of detail report consisting scanned copy of **attendance certificate** and **honorarium voucher** (signed scanned copy) from each expert to lead college email.

Regards,

## *In-vivo* Pharmacokinetic Study, *in-vitro* Cytotoxic, Cell Cycle Arresting and Proapoptotic Characteristics of Multiple Emulsions for the Co-delivery of Simvastatin and Alendronate Sodium

Sandip Akaram Bandgar<sup>1,2</sup>, Namdeo Ramhari Jadhav<sup>2,\*</sup>

<sup>1</sup>Department of Pharmaceutics, Ashokrao Mane College of Pharmacy, Peth Vadgaon, Kolhapur, Maharashtra, INDIA.

<sup>2</sup>Department of Pharmaceutics, Bharati Vidyapeeth College of Pharmacy, Kolhapur, Maharashtra, INDIA.

### ABSTRACT

**Purpose:** Development of nanocarriers that can provide efficient co-delivery of immiscible hydrophilic/ hydrophobic drugs with established technology for industrial production is crucial. Due to this reason, multiple emulsions (MEs) were selected as the desired carriers to achieve the co-delivery ability of many drugs and the improvement of cancer therapeutic effect. MEs could entrap the drug in the inner oil phase and hence avoid the drug leaking and co-deliver the drugs into the tumor sites. Therefore, in the present study, an attempt is made to develop w/o/w multiple emulsion for co-delivery of lipophilic Simvastatin (SVS) and hydrophilic Alendronate Sodium (ADS) with improved oral pharmacokinetics. **Methods:** The MEs were formulated by the use of Poloxamer-407, TPGS and Soyabean Oil. Tween 80 and Span 80 were used as surfactant and co-surfactant respectively. The MEs were prepared by the process of primary and secondary emulsification and evaluated in terms of visual assessment, turbidity, viscosity, particle size and zeta potential. The optimized batch was evaluated in terms of TEM analysis, X-Ray diffraction, FTIR study, *in-vitro* release and screened for cytotoxicity study, cell cycle arresting, apoptosis study and quantification of SVS and ADS in Rat Plasma. **Results:** The MEs treatment inhibited the cell growth with low  $IC_{50}$  value against all cells (A549:  $0.030 \pm 0.014 \mu\text{g/mL}$ , MDAMB-231:  $0.088 \pm 0.013 \mu\text{g/mL}$ , PC-3:  $0.019 \pm 0.002 \mu\text{g/mL}$ ). The AUC in case of ADS and SVS was found to be 710.01 ng/mL and 14.413 ng/mL respectively by oral administration and 42.308 ng/mL and 28.902 ng/mL in 12 and 1 hr respectively by IV administration. **Conclusion:** This strategy has improved simultaneous oral bioavailability of very poorly bio-available both ADS and SVS and thus improved the oral therapeutic efficacy of this combination therapy.

**Key words:** Simvastatin, Alendronate Sodium, *In-vivo* Pharmacokinetic Study, Cytotoxicity Study, Cell cycle arresting, Apoptosis Study.

### INTRODUCTION

Statins clinically used to reduce blood cholesterol levels, are the second-most prescribed drugs after analgesics and are considered to be the safest drugs.<sup>1</sup> In cell-based experiments, the hydrophobic statins displayed inhibitory effects on many cancers.<sup>1,2</sup>

Alendronate Sodium is the sodium salt of alendronate, a second generation bisphosphonate and synthetic analogue of pyrophosphate

with bone anti-resorption activity. Alendronate sodium binds to and inhibits the activity of geranyl transtransferase, an enzyme involved in terpenoid biosynthesis. Nitrogen containing Bisphosphonates have been proved to reduce and delay bone complications from bone metastasis, and have been used worldwide for the treatment of bone metastasis from solid tumors, bone complications and pain from multiple myeloma.

## Design and Optimization of Nanophytosomes Containing *Mucuna prurens* Hydroalcoholic Extract for Enhancement of Antidepressant Activity

Poonam Karekar<sup>1,2</sup> · Suresh Killedar<sup>3</sup> · Sudhanshu Kulkarni<sup>2</sup> · Amir Shaikh<sup>2</sup> · Poornima Patil<sup>4</sup>

### Abstract

**Purpose** In this study, the herbal formulation containing nanophytosomes of *Mucuna prurens* extract (MPE) was engineered to ameliorate its rate of drug release, in vivo antidepressant profile, and stability.

**Method** The *Mucuna prurens* nanophytosomes (MPP) were designed by using a full factorial design approach, taking into consideration various variables that could give optimized formulation. Then, pure extract and optimized formulation showing higher entrapment efficiency were studied for in vitro dissolution and in vivo antidepressant activity in depression models like forced swimming test (FST) and tail suspension test (TST) in Swiss albino mice. The physicochemical characterization was carried out using particle size analysis and zeta potential, Fourier transformation infrared spectroscopy, differential scanning calorimetry, proton nuclear magnetic resonance, powder X-ray diffractometer, scanning electron microscopy, and solubility studies. Moreover, the stability of nanophytosomes was assessed by subjecting optimized formulation to freeze–thaw cycle stability testing and calculating entrapment efficiency at the end of the cycle.

**Results** PXRD and SEM revealed a decrease in the crystalline nature of nanophytosomes. <sup>1</sup>H NMR, DSC, and FTIR asserted the formation of the phyto-phospholipids complex. The rate and extent of dissolution were also found enhanced and sustained in nanophytosomes as compared to pure extract. In vivo antidepressant activity depicted a significant reduction of immobility in mice treated with nanophytosomes as compared to those treated with the pure extract. Moreover, optimized formulation was found stable as entrapment efficiency values were not reduced significantly.

**Conclusion** Thus, nanophytosomes drug delivery could be the best strategy to improve physicochemical properties of extract and thus could be exploited for the extracts having poor solubility, poor permeability, and poor stability.

**Keywords** Nanophytosomes · *Mucuna prurens* extract · Antidepressant activity · Physicochemical characterization

### Introduction

Depression is considered a life-threatening psychological disorder nowadays as almost 20% of the world's population is affected by such a chronic and recurring one. [1–3]

The disorder has established its relation to psychosocial, behavioral abnormalities, although the complete etiology of it has not been fully explored. The disorder is regarded as a common cause of suicidal tendencies. [4, 5] Depression is characterized by aberration of emotional, behavioral

**Sub:** Seeking permission for testing Samples by IR Spectroscopy

Respected Sir,

With reference to the subject cited above, I request you to permit our students for testing samples on Infrared Spectrophotometer at the facility available at Annasaheb Dange college of Pharmacy, Ashta.

As a part of Academic project work they need to take IR of some samples. So Sir I request you to kindly allow our students for testing samples at your college. We are ready to pay all charges as per your norms.

Your cooperation is highly appreciable and acknowledged.

With regards,

Ashokrao Mane Institute of Pharmaceutical

**Sub:** Seeking permission for testing Samples by IR Spectroscopy

Respected Sir,

With reference to the subject cited above, I request you to permit our students for testing samples on Infrared Spectrophotometer at the facility available at Annasaheb Dange college of Pharmacy, Ashta. As a part of Academic project work they need to take IR of some samples. So Sir I request you to kindly allow our students for testing samples at your college. We are ready to pay all charges as per your norms.

Your cooperation is highly appreciable and acknowledged.

With regards,

Ashokrao Mane Institute of Pharmaceutical Sciences & Research, Save, Dist. Kolhapur.

Subject: Formulation sample for Particle size, Zeta potential & FTIR

Respected Sir,

With reference to the above cited subject, Mr. Shubham Balkrishna Yadav, M.Pharm, Pharmaceutics Department, A Student of our college studying and doing research work, would like to analyze their sample for Particle size, Zeta potential & FTIR.

The details are as below:

Sr. No.	Name of student	Type of Analysis	No. of Samples
1.	Mr. Shubham Yadav	Particle Size & Zeta potential	09
2.	Mr. Akshay Nalawade	FTIR	02

So, requesting you to extend your kind cooperation in this regard.

Thanking you

$Psize = 09 \times 100 = 900$   
 $Zeta = 09 \times 200 = 1800$

To,  
The Chairman,  
IPA-Kolhapur Local Branch,

**Subject: National Level E- Poster Competition for Pharmacy students.**

Respected Sir,

In connection with the above subject we, Ashokrao Mane Pharmacy College, Peth Vadgaon, Womens College of Pharmacy, Peth Vadgaon, Ashokrao Mane Institute of Pharmacy, Ambap and Ashokrao Mane Institute of Pharmaceutical Sciences and Research, Save are planning to organize online national level e-Poster competition for Pharmacy students. It's our humble request to sponsor the program under IPA Kolhapur Local branch.

We all know that IPA Kolhapur branch has given enormous contribution in couple of years in the field of pharmacy. It will be our privilege if we get an opportunity to work in collaboration with you. We believe that your contribution to this field is unparalleled and will be of great benefit. This program is scheduled in the third week of February 2022 and will be held on Online Mode.

So we request you to give an opportunity to conduct this event in collaboration with IPA Kolhapur Local branch.

Thanks and Regards

*Dr. S.V. Patil*

### LETTER OF APPRECIATION

To,  
Dr. Pravin Patil  
Assistant Professor  
Ashokrao Mane College of Pharmacy,  
Peth Vadgaon

Academic and research is your expertise so, keeping this in mind, we have organized an expert talk on 10<sup>th</sup> March, 2022 at our institution under Shivaji University Kolhapur, Lead College Activity "Sharing of Human Resources" 2021-2022.

We accolade and applause of your efforts by accepting our request and delivering a lecture on "Absorption" on both a professional and a personal level, I really appreciate the time that you have spend for rising awareness among students about developing the knowledge about Absorption.

Your session was informative coupled with the unbounded enthusiasm and ever-lasting bang on the students.

Please accept our sincere thanks and appreciation.

### Invitation

To,  
Ms. Sarika Suryawanshi  
Assistant Professor  
Ashokrao Mane College of Pharmacy,  
Peth Vadgaon

Reference: BV/CPK/SHR-Lead College-121/2021-2022 Date: 28/02/2022  
Subject: Invitation for expert talk on topic, "Physical Pharmaceutics-Rheology".

Madam,

With reference to the subject cited above, you are invited as expert to conduct Sharing of Human Resources Activity under Lead College Scheme of Shivaji University, Kolhapur.

Nurturing creativity and inspiring innovation are the key elements of a successful education. Vasantidevi Patil Institute of Pharmacy, Kodoli established in 2003 with the aim to enhance the quality education in the field of Pharmacy and empower the quality pharmacist to serve the society. It strives for an intellectual endeavor that focuses on critical and creative thinking, while the aim of social transformation.

Your guidance will definitely provide a platform to students for developing and applying their skills which will explore them to the world of pharmacy, where skills are recognized, respected, and rewarded. Keeping this mind we are organized an expert talk on topic of "Physical Pharmaceutics-Rheology" on 09<sup>th</sup> March, 2022 under Shivaji University Kolhapur, Lead College Activity "Sharing of Human Resources" 2021-2022.

For the same I would like to invite you to deliver an expert talk on topic of "Physical Pharmaceutics-Rheology". Your valuable guidance will really be beneficial for the students as well as institution. So, kindly confirm your presence by acknowledging this invitation.

Thanking you,

Regards,.....

### Certificate of Analysis

Date: - 01/08/2022

Name / Organization: Mr. nitin mali

Sample Description : Samples 1- Aq extract

Antifungal activity against Candida albicans

(Agar well plate diffusion Method)

#### WELL DIFFUSION METHOD FOR THE DETERMINATION OF ZONE OF INHIBITION

##### Antifungal activity

**Stock solution for antifungal activity:** For antifungal study each compound was dissolved in DMSO at a concentration of 5mg/ml and 10mg/ml stored in a refrigerator till further used

Antifungal activities of the sample A were evaluated by means of agar well diffusion assay. The assay was carried out according to the method of (Hufford *et al.*, 1975). Sabouraud dextrose agar (Hi media) was used for the growth of fungus. Media with acidic pH (pH 5.5 to 5.6) containing relatively high concentration of glucose (40%) is prepared by mixing (SDA) Sabouraud dextrose and distilled water and autoclaved at 121°C for 15 minutes.

Twenty five ml of molten (45°C) SDA medium was aseptically transferred into each 100mm×15mm sterile Petri dish.

For counting of spore (fungi) were suspended in normal saline to make volume up to 1ml and then counted with help of hemocytometer (neubar chamber). Once the agar was hardened, 6mm wells were bored using a sterile cork borer. Then concentration of 5mg and 10 mg was placed in each the well and the plates were incubated for 72 hour at 29°C. Two wells in each petri dish were supplemented with water and reference antifungal drug fluconazole (1mg/ml) dissolved in water serve as negative and positive control respectively. The antifungal activity

## SHRI VIJAYSINHA YADAV COLLEGE, PETHVADGAON

Department of Botany

## Extension Activity Report 2016-2021

Name of Activity: Plant Authentication

Target Group: open to all

Number of Participants took the advantage (20-Villegers)

Name of the Authority: Mr. Dasharath G. Jagtap, Head,  
Department of Botany, VYMP, Pethvadgaon

## Short Description:

Authentication of medicinal plants is of utmost importance. Correct identification of plants used for Drug designing is very important. Morphological, anatomical, and chemical characterisation solve the problem by differentiating the genuine plant material from the adulterants and substitutes. Department of botany consistently engaged for providing necessary facilities and authenticate the plant specimens by using Taxonomic literature.

The students of pharmacy, people from NGOs, researchers, farmers, etc. are taken advantage of this facility. The Department provides 'Authentication Certificate to them for their further work.
