Policy for Alternate Source of Energy, Energy Conservation and Environment friendly ecosystem

Purpose: To construct infrastructure for alternative energy sources so that power may be produced and used more effectively.

Scope:

- 1) Production of electricity with solar panels
- 2) Sun-powered water heaters
- 3) Use of LED lighting
- 4) Campus-wide solar streetlights with sensors
- 5) Green Campus
- 6) Water collecting
- 7) Waste Control
- 8) Disability-friendly surroundings

Objective:

1. To identify potential alternate energy sources the institute may use.
2. To inform teachers, staff, and students about energy conservation at the institutes.
3. To educate students, faculty, and staff at the institutions about energy conservation.
4. To create a tree planting program to maintain the environment's greenery.
5. To preserve an environmentally friendly atmosphere by limiting the usage of non-biodegradable materials.
6. To put rainwater gathering methods into practice.
7. To include provisions for the treatment of biodegradable and non-biodegradable trash.
8. To help persons with physical disabilities benefit from an environment that is accommodating to them.

**Implementation:**

1. We have created sensor-based solar street lighting, user-friendly solar water heaters, and solar panels.
2. When not in use, we admonish everyone using a device to turn off lights, fans, and other electronic devices.
3. All of the labs, hallways, and classrooms need to be well ventilated to make the most of the sun's energy and cut down on the need for power.
4. We employ electric equipment with minimal power consumption, such as LED bulbs and LED tubes.
5. Every year, we organize activities like tree planting and "Swachhata Abhiyan" as part of the National Service Scheme. We have prohibited.
6. The usage of plastic of any form on campus
7. All frequently entering vehicles shall be subject to pollution control (PUC) Ever third Saturday of the month, on campus, we celebrate Vehicle Day.
8. We steadfastly supported the use of electric cars.
9. We have Memorandums of Understanding with many organizations in order to preserve an environmentally friendly atmosphere.
10. In accordance with the MOUs, recyclable and non-recyclable waste is forwarded. We have made arrangement for rain water harvesting through open well recharge, ground water recharge etc.
11. To make it simple for those with physical disabilities to reach the classroom, we created campus surroundings with ramps and lifts.
12. To preserve a disabled-friendly atmosphere, wheelchair-accessible and handicapped restrooms are also provided.

13. We have created campus facilities with ramps and lifts for physically challenged students to easily access class rooms.

14. To preserve a disabled-friendly environment, wheelchair and accessible restrooms are also available.

All of these initiatives are designed to preserve the campus' environmentally friendly atmosphere.

The IQAC meeting is where the policy was finalized.
