ABOUT THE PROGRAMME

This workshop provides a concise, hands-on overview of High-Performance Thin-Layer Chromatography (HPTLC) with special emphasis on its role in herbal drug analysis and pharmacognosy research. Participants are introduced to the principle, instrumentation, method development, and validation of HPTLC, along with practical demonstrations of herbal fingerprinting, authentication, and quantitative estimation of phytoconstituents. The program highlights the use of HPTLC in quality control, standardization, and detection of adulterants in herbal raw materials and formulations, in line with WHO and pharmacopoeial guidelines, making it highly relevant for students, researchers, and professionals in herbal and pharmaceutical sciences.

ABOUT INSTITUTE

Ashokrao Mane College of Pharmacy, Peth-Vadgaon has started in the year 2006 with the vision of empowerment of the nation with knowledgeable pharmacists and the mission of Providing Pharmaceutical education par excellence. The college is one of the 'Rural and semi-urban-society-centered focused educational institute. Event Details

Event Title-	One Day Workshop on, “HPTLC TECHNIQUE AND IT’S APPLICATIONS IN HERBAL ANALYSIS”
Organized By-	Department of Pharmacognosy, Ashokrao Mane College of Pharmacy, Peth-Vadgaon
Date Of Organization-	14 th January, 2026
Funding Agency-	Self-funded
Collaboration/MOU-	Nil
Description-	<p>A one-day workshop on “High Performance Thin Layer Chromatography (HPTLC) and it’s applications in herbal analysis”, was successfully conducted by the Department of Pharmacognosy at Shri. Balasaheb Mane Shikshan Prasarak Mandal’s, Ashokrao Mane College of Pharmacy, Peth Vadgaon, Kolhapur.</p> <p>The workshop was organized with objective of providing theoretical knowledge and video- demonstration on HPTLC analysis of herbals, an advanced and widely used analytical technique in pharmaceutical analysis and quality control of herbal and synthetic drugs.</p> <p>The program commenced with an inaugural session, during which Ms. Vedika Patil (Application Chemist, ANCHROM Enterprises Pvt. Ltd.) was formally welcomed.</p> <p>The resource person explained the principle, instrumentation, and applications of HPTLC, highlighting its advantages such as high resolution, reproducibility, rapid analysis, and cost- effectiveness compared to conventional TLC. The technical session covered important aspects including sample preparation, selection of mobile phase, plate activation, and sample application using Linomat -V, chromatogram development, derivatization, and densitometric scanning. Emphasis was laid on the interpretation of R_f values, peak area, and fingerprint profiling, particularly in the standardization of herbal formulations. The hands-on practical session enabled participants to gain real-time experience in operating the HPTLC instrument. Participants actively performed spotting, plate development, visualization under UV light (254 nm and 366 nm), and scanning using a densitometer. The practical demonstration enhanced their understanding of method development and troubleshooting in HPTLC analysis.</p> <p>Principal Dr. A. P. Gadad, Academic Coordinator Dr. S. A. Bandgar, Coordinator Ms. S. V. Nhavkar, and Prof. V. V. Upadhye were present during the workshop. The program was compered by Prof. S. C. Kavane, and the vote of thanks was proposed by Prof. V. V. Upadhye. Prof. P. P. Sherekar, Prof. V. U. Patil, and the non-teaching staff put in special efforts for the success of the program. The workshop witnessed active participation from students, research scholars, and faculty members, who interacted enthusiastically with the resource person and clarified their doubts. The total number of registrations were 78. The session concluded with a feedback discussion, where participants expressed that the workshop was highly informative, well-structured, and beneficial for academic and research purposes.</p>
