Vikasrao Mane and members of the Board of Management are making significant contributions in opening new doors and chartering new paths for the development of technical and non-technical education.

**ABOUT US**

Ashokrao Mane College of Pharmacy, Peth Vadgaon was established in the year 2006 with the vision of "Empowerment of Nation with knowledgeable Pharmacists". The college is one of the "Rural-Semi urban society centered and focused educational institute. The college is having well qualified, dynamic and experienced staff, well equipped laboratories and resourceful library.

Empowerment of the nation with knowledgeable pharmacists for healthy India

1. To Provide Pharmaceutical Education Par Excellence
  2. To Promote Community Institutional & Industrial Pharmacy
  3. To Foster and Disseminate Productive Research in new & emerging area
- generate human resource in the profession of pharmacy

Persons with disabilities face discrimination and barriers that restrict them from participating in society on an equal basis with others every day. They are denied their rights to be included in the general school system, to be employed, to live independently in the community, to move freely, to vote, to participate in sport and cultural activities, to enjoy social protection, to access justice, to choose medical treatment and to enter freely into legal commitments such as buying and selling property. A disproportionate number of persons with disabilities live in developing countries, often marginalized and in extreme poverty. The protection guaranteed in other human rights treaties, and grounded in the Universal Declaration of Human Rights, should apply to all. Persons with disabilities have, however, remained largely 'invisible', often sidelined in the rights debate and unable to enjoy the full range of human rights.

In recent years, there has been a revolutionary change in approach, globally, to close the protection gap and ensure that persons with disabilities enjoy the same standards of equality, rights and dignity as everyone else. The Convention on the Rights of Persons with Disabilities, which was adopted in 2006 and entered into force in 2008, signalled a 'paradigm shift' from traditional charity-oriented, medical-based approaches to disability to one based on human rights. Former UN High Commissioner for Human Rights, Louise Arbour, said, "The celebration of diversity and the empowerment of the individual are essential human rights messages. The Convention embodies and clearly conveys these messages by envisaging a fully active role in society for person with disabilities."
