ABOUT SEMINAR

The seminar will provide a platform for networking and knowledge sharing among industry professionals, researchers, academicians, and students. It offers an excellent opportunity to explore the latest advancements in AI and discuss collaborative efforts to further leverage its potential in the pharmaceutical domain. We have curated an outstanding lineup of industry experts, renowned researchers, and professionals who will deliver insightful presentations and engage in interactive discussions throughout the event. Some of the key topics that will be covered include

- AI - A new domain to Pharma Industry: Fundamentals and Future Perspectives
- AI in sensors in future drug delivery
- AI in Biopharmaceutical Product Development
- AI in Drug Design and Discovery.
- Applications of AI in Drug Product Development and Manufacturing Processes
- Impact of Power of AI in Novel Drug Delivery Systems

TOPICS FOR POSTER PRESENTATION

- Role of AI in accelerating the drug discovery process
- Applications of reinforcement learning techniques in optimizing drug delivery systems.
- Novel approaches for targeted drug delivery using nanotechnology such as Liposomes, Solid Lipid Nanoparticles, Niosomes etc.
- Innovative drug delivery devices enabled by AI such as smart inhalers, implantable sensors, and microneedle patches.
- Computational methods for rational drug design, including molecular docking, molecular dynamics simulations, and quantitative structure-activity relationship (QSAR) modeling.
- Artificial Intelligence in Pharmacovigilance: Advancing Drug Safety Monitoring and Risk Management in Clinical Research.
- Exploring the Potential of Herbal Medicines in the Treatment of Common Diseases.

The poster should be in size of 36 inches (91cm) wide and 48 inches (122 cm) height. Submit the abstract on or before 10 July 2023 to conference@amcoph.org for a stall guidelines visit www.amcoph.org
